LIFE @ IIM JAMMU

8:15 am

I'm shaken into existence in the morning with two alarms ringing in a synchronous cacophony. Oh! I am late again. I race to get dressed, stuffing a sandwich in my mouth; I run a long distance race to arrive at the class before the professor enters.

8:30 am

Thank God! I am not late. Somehow I compelled myself to go to class to increase my knowledge Assets. Trying harder to keep my eyes open but then there is a fight for CP, class participation marks. So even if I am sleepy, I have to be attentive.

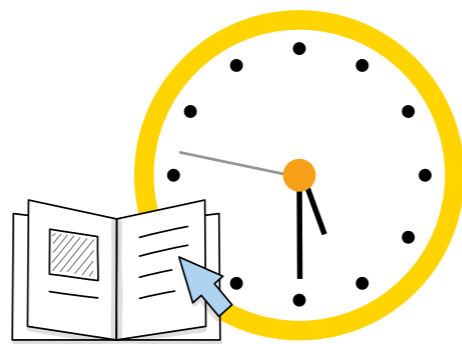

1:00 pm

Lectures, case studies and question answer rounds for about three and a hour; lunch break seems to be a saviour, but only if, the brain stop ticking WORK. Eating and working simultaneously is a higher level performing multiple tasks I do.

5:30 pm

After completing the average person's dose of a day's work within eight hours, the part of becoming Hercules starts. Where some starts the next day preparations and completes the assignments, some goes for the less academic endeavours.

8:00 pm

Eventually, I get real time for me where I charge up myself with fun activities. The Playground brimming with athletes and gatherings of club members chatting are like literally the Buzz of the campus.

9:30 pm

Finally, it's dinner time! After a long day of study and projects, ready to have delicious food which won't make you miss your home-cooked food.

11:00 pm

I need to sit with my group for upcoming chase competitions. The bar has been raised and the hopes are high. Dissimilar to last time we need to win this time. It's now or never.

2:00 am

Past midnight and there's one last task that I need to finish before dawn...Coffee is definitely going to keep me awake for the next couple of hours or so.

4:00 am

A minute of dread is followed by a bouquet of smile as I congratulate myself,, thanking my stars for having survived another day. Turning off my lights, I set my alarm. As I drift off, I look forward to the coming weekend.

INDUSTRIAL VISITS

The Industrial visits gave hands-on experience, provided a unique opportunity for practical learning and exposure on hospital management.

Students engaged with hospital administrators and healthcare professionals, gaining insights into clinical operations, human resources, and quality assurance. They were told about cancer treatment using radiotherapy, inventory management systems, and pharmacy stores.

The visits bridged the gap between theory and application and equipped the students with valuable perspectives for future healthcare leadership roles.

ALUMNI TESTIMONIALS

Ruchit Kevadiya, BATCH04

IIM Jammu has imparted many valuable things in me over the two years including academic excellence, clear vision, greater confidence and ethics. IIM Jammu possesses beautiful campus, fruitful courses, dedicated and friendly faculties, colorful culture, and diverse and lovely batchmates. IIM Jammu has great academia-industry connection to provide practical business knowledge and placement support. IIM Jammu has much more in it and here i tried to use only more accurate and closer adjectives.

Associate solution advisor, Deloitte USI

Sourav Sandeep Pattanaik, BATCH02

As I studied in the 2nd batch and we were being mentored by IIM Lucknow, the professors were excellent and the knowledge you get from them helps you in your professional careers. As you have lived in a highly competitive environment for 2 years in your MBA it helps you to excel in highly demanding situations in corporate world. I loved the winters in Jammu. The campus was very small when I studied, but it had a beautiful lawn and loved every bit of the beautiful campus

Project and Strategy Manager, Reliance Retail

IIM Jammu - When I stepped into this place, I was unknown to what an amalgamation of hope, despair, joy, and happiness would look like! We hear it quite often that every moment, every struggle in an MBA college is a part of your learning! It is what you learn beyond the classroom lectures that adds up to your growth. Sounds cliched right? We have learnt it too but in the most unique way - it is how we managed to have food inventory in place even in the toughest of days, it is how we have concentrated on our assignments and quizzes with the beauty of the city trying to distract us, it is how we started learning the basics of marketing with branding our own college. Needless to say, we had some of the world class classroom teachings available for us - within and beyond the boundaries of India! IIM Jammu is a reality that still feels like a dream! From the best of friends to the best of moments - I, now have it all. Not to forget the convocation day, when I was on Cloud nine while receiving the PGP Chairman's Bronze Medal from the erstwhile Honble. Governor of J&K - Mr. Satya Pal Malik.

Product Manager, HCL Technologies

Simran Verma, BATCH03

IIM Jammu did not only provide me with a platform to develop a varied set of skills but also a platform to interchange ideas with diversified pool of people. Starting from the intellectual batchmates to the eminent personnels from different domains and industries, each one of them gave some valuable insight that has enriched my thought process. The international exposure through IIP at ESCP Berlin gave me an hands on experience to diversity and inclusivity. Moreover, it gave me a better understanding of organisations and business acumen in an international level. The last two years at IIM-J has brought out a fine personality in me by enhancing my knowledge, and confidence. At the same time, the place has taught me to be humble whatsoever. I will preserve and cherish all the learnings (professional as well as personal) from my stay at IIM-J throughout my life. I will always be indebted to the Institute for all my future endeavours.

Executive Assistant, CEO Office, Tech Mahindra

Aniket Sharma, BATCH01

With great tags come great responsibilities. Being in the pioneer batch made my fear of placements go away and all I needed was full focus on the field I admired the most, data science. Despite being a below average performer in most of the subjects, I had offered a job during a guest lecture. IIM Jammu (faculty, beloved batchmates and juniors) boosted my confidence to believe in my goals and achieve them. Special thanks to Prof. Neerja Pande, Anadi Sir and late Ajeet Sir their guidance helped shape my personality.

Risk Analytics Manager, Axis Bank

Mohammed Anees KP, BATCH04

For me, IIM Jammu is not just about academic improvement, but holistic improvement. There is difference like day and night between the person who stepped his foot at the campus on July 10, 2018 and the person who left the campus on March 31,2021. My tenure as the Vice President of the Students' Council helped me to explore myself and thus identify the skills which I'd earlier overlooked. Also, my experience as an admissions committee member helped me a lot during my placement process at GUVI, which is an EdTech company and the learnings that I'd gained by dealing with the aspirants acts as the guide when I deal with the customers today. Late night project works, exam preparations, presentations, being a core team member of our first annual fest and successfully pulling it off alongside my IIM Jammu family are some of my fondest memories at IIM Jammu.

Business Development Executive, GUVI
